Under guidance from the Massachusetts Department of Public Health (DPH), Lowell General Hospital strongly recommends that the following individuals do not visit a hospital unless the visit is essential:

- Individuals who have returned from travel to any country identified as having widespread local transmission of COVID-19; and

- Individuals with upper respiratory tract symptoms, including fever and/or cough.

Visitors are limited to two (2) per patient and must be 18 years or older.

If you would like additional information regarding the Coronavirus (COVID-19), please visit www.cdc.gov/coronavirus/2019-nCoV.
